DETAILED ACTION

Allowable Subject Matter

1. Claims 1-6, 8-12, & 14-23 are allowed over prior art of record.\

The following is a statement of reasons for the indication of allowable subject matter:

Suzuki (A, PTO-892) is the closest prior art relevant to the patentably distinct claimed subject matter. Suzuki shows that it is known to provide the use of a mirror in combination with an optically absorbent material in order to attenuate an optical signal. A combination of Suzuki with Aksyuk et al. (UPSN '657 B1, hereinafter Akysuk) would not be proper because Suzuki shows the use of such attenuation means in the field of optical reflecting in image processes apparatuses. One of ordinary skill in the art at the time of the claimed invention would not retrieve an optical attenuating means in the field of optical reflecting in image processing when dealing with non-analogous art pertaining to the field of optical multi/de-multiplexing of optical signals.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
